

THE DOUBLE DRAGON RITUAL

With R J Stewart & Anastacia Nutt

Experience the ritual and its meditations and visions

New Workshop

Theosophical Society in Arlington MA April 1 & 2, 2017

*New Times Require a New Approach
to Magical Ritual.*

The **Double Dragon Ritual** first appeared in R J Stewart's *Advanced Magical Arts*, one of the foundational books for the Inner Temple Traditions Inner Convocation work. Initially worked as a private ceremony in Britain with a small group that included RJ, Gareth Knight, John and Caitlin Matthews, Marian Green, and other Western Tradition occultists, it has been revised and updated for more widespread use, including some developments for larger group use.

The **Double Dragon Ritual** is intended for times of potential crisis; it is a time to bring the spiritual forces of *Balance and Regeneration* into the ceremonial group. Such forces are then mediated outward to the community and the land.

Over two days we will explore the inner content of the ritual, meditate on its spirit inner contacts in the Over and Under Worlds, envisioning the powerful telesms that it contains. On day two our group will work the ritual itself in the early afternoon, and spend time assimilating our experiences afterward. Following the weekend, group members will network with others who have done the ritual, to stay attuned to its spiritual and sacromagical forces.

Join us to discover how to work this new version of the **Double Dragon Ritual**, specially developed for the current crises that affect us all.
